In our next episode of PRCC's webinar series, Executive Director, **Rick Price** and Board Member, **William Sapon** of Peoples Natural Gas will host **Katherine Ryzhaya**, CEO of Marvel Power Group and **Sam Peelle**, Senior Director of Marvel Power Group to provide an overview of renewable natural gas (RNG) markets. Marvel has significant experience in the burgeoning RNG space, having recently surpassed \$1B in closed transactions.

### Webinar topics include:

- RNG feedstocks and production sources
- Common RNG uses
- Monetization of environmental attributes
- Commercial procurement structures
- And More!

The presentation will be followed by a Q&A with Marvel Power Group.

**Katherine Ryzhaya** is the founder and CEO of **Marvel Power Group**, a San Francisco-based clean energy advisory and brokerage platform. A tenured executive with nearly two decades of experience, Katherine has deep expertise in renewable power and gas, distributed resources, battery storage and data analytics. She has worked on all sides of the table (utility, developer, trader, investor) and has closed over \$4B in transactions. Today, Katherine dedicates her time to decarbonizing transportation and energy delivery and assisting legacy clients on their energy transition journeys.

**Sam Peelle** is a Senior Director of **Marvel Power Group** whose responsibilities include growing the company's already robust renewable natural gas (RNG) advisory and brokerage businesses. Sam has almost 15 years' experience in renewable power and gas markets, including demand side energy management, energy procurement, battery storage and energy data analytics. He focuses his time today working closely with gas retailers, large corporations, transportation clients and biogas developers and suppliers to help decarbonize thermal energy usage across the country.
