Sustainable Sewickley & Pittsburgh Region Clean Cities along with host sponsors YMCA, National Drive Electric Week invite you to come and be part of Electric Vehicle (EV's) Workshop and Ride & Drive Event.

For over 3 years a coalition of government, industry, utility, educational and non-profits have been convening to plan for EV adoption throughout the Commonwealth. The Drive Electric PA Initiative is a direct result of these meetings. This event is planned to help consumers, municipalities, businesses, educational facilities and with a comprehensive workshop to help with the adoption of EV's.

Join us and a group of industry experts as we discuss the benefits of using electricity as a vehicle fuel. The event will include:

- ◆ Various types of electric vehicles
- ◆ Information on Charging— types and locations
- ◆ Incentives/Grants
- ◆ Demonstrations
- ◆ Ride & Drives
