Join Pittsburgh Region Clean Cities and Eastern Pennsylvania Alliance for Clean Transportation in hosting Pioneer Power Mobility to talk about electric vehicle charging solutions where infrastructure may not be available.

This event is planned to help companies, counties, municipalities and fleet managers about alternative options for charging stations.

Join us and learn about:

- ◆ Three different charging station options
- ◆ Solutions for Range Anxiety
- ◆ Using a Greener Fuel

Across PA, more than 4,300 DC Fast Charging stations and nearly 50,000 public and workplace Level 2 charging stations are needed by 2035 to support the growing number of electric vehicles.
